REBUILDING LIVES. BUILDING FURNITURE.
PURPOSEFUL-DESIGN

— EST. 2013 —

Our mission is to help re-build the lives of men, women, and youth who have struggled through poverty, addiction, homelessness and/or prison and equip them with work skills and the gift of work. We build custom hand-crafted wood and steel furniture.

Purposeful Design is a fully-functioning wood and metal shop specializing in handmade furniture made from rough cut, Indiana hardwoods and metals. We employ and train men who have been without a home or who find it difficult to get a job – helping rebuild lives while teaching the craft of woodworking through positive and encouraging mentorship. We design and build a variety of furniture, each handmade by our skilled craftsmen. Behind every piece of furniture is a unique story of a life transformed.
